

◆ Education partnership agreement :

Kobe Gakuin University has concluded an educational partnership agreement with Kobe City College of Nursing and is co-hosting the IPE for effective educational practice. We aim to contribute to the community by sharing our resources with the next generation of medical professionals. We believe they will play a crucial role in the promotion and improvement of our community's health and welfare and we are dedicated to helping them succeed.

Kobe Gakuin University provides interprofessional education (IPE) to foster the talent of future medical professionals and leaders.

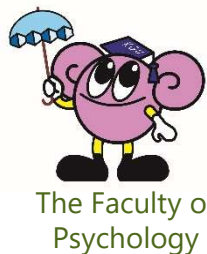

The target faculties of IPE are as follows.

The Faculty of Nutrition

The Faculty of Rehabilitation

The Faculty of Psychology

The Faculty of Pharmaceutical Sciences

Faculty of Nursing (KOBE CITY COLLEGE OF NURSING)

September 2020 - February 2021
(Intensive lecture format)

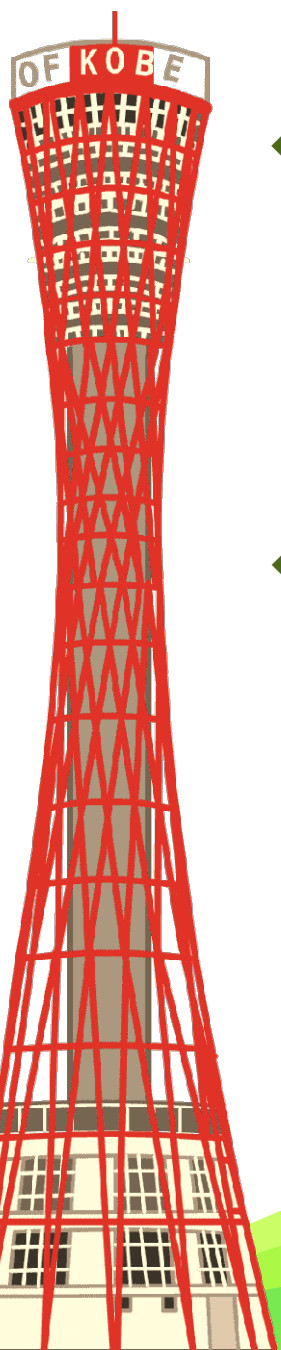

※ We will notify accepted students of the class schedule in detail at a later date.

◆ How to apply :

Recruitment will start around June 2020.
Students who wish to attend should check the bulletin board and e-mail, register through the campus information service.

◆ The ideal candidates are people who want to :

- Network with professionals in the health and welfare department
- Learn more about other faculties and occupations
- Be at the forefront of healthcare and medical industry

Interprofessional Education and Experiences A (1st to 6th year, 1 unit)

In this course, you will learn the roles of various occupations in the healthcare and welfare field through group activities.

Interprofessional Education and Experiences B (2nd to 6th year, 1 unit)

In this course, you will learn more about how people in other medical professions think, act and the values they hold by engaging in practical training.

Interprofessional Education and Experiences C (3rd to 6th year, 1 unit)

In this course, you will work in interprofessional teams to promote health and welfare and learn how to identify conflicts and issues between occupations.

Interprofessional Education and Experiences D (3rd to 6th year, 1 unit)

This course gives students the ability to resolve conflicts and issues between occupations through community activities.

◆ Benefits of the IPE. You can learn more about:

- The "Dream job" you have been aiming for
- A wide range of other career options you have available to you
- A wide range of current practical medical treatment issues facing the community
- Practical experience you can use in your future job

Kobe City Support Project :

Kobe City is focusing on developing human resources who can contribute to solving issues in the area of health, medical care and welfare.

Kobe City supports Kobe Gakuin University's Interprofessional Education (IPE).
